DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-25, drawn to method of reconstituting a target protein and method of preventing transmission.

Group II, claims 26-27 and 32 (only as it depends on claim 26), drawn to isolated DNA fragment comprising a DNA split site in an EPSPS gene.

Group III, claims 28-29 and 32 (only as it depends on claim 28), drawn to isolated DNA fragment comprising a DNA split site in an E. coli ALS gene.

Group IV, claims 30-31 and 32 (only as it depends on claim 30), drawn to isolated DNA fragment comprising a DNA split site in a maize ALS gene.

If the applicant elects any one of Groups II-IV, then the applicant must make a further election to one specific sequence (i.e., one specific invention) of claim 27, 29, or 31, respectively, because each of Groups II-IV are drawn to multiple inventions as directed to nucleic acid sequences that are unrelated to each other and thus do not share a common special technical feature.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT

Art Unit: 1636

Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

PCT Rule 13.2 requires that unity of invention exists only when there is a shared same or corresponding technical feature among the claimed inventions. Group I is directed to a method which does not make or use the isolated DNA fragments as claimed in Groups II-IV and thus does not share a special technical feature in common with those groups. Groups II-IV are drawn to isolated DNA fragments from different genes, including drawn to different specific sequences, and thus do not share a special technical feature in common with each other or even within each group.

A telephone call was made to Gregory Williams on 7/16/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Certain papers related to this application may be submitted to Art Unit 1636 by facsimile transmission. The faxing of such papers must conform with the notices published in the Official Gazette, 1156 OG 61 (November 16, 1993) and 1157 OG 94 (December 28, 1993) (see 37 C.F.R. § 1.6(d)). The official fax telephone numbers for the Group are (703) 308-4242 and (703) 305-3014.

NOTE: If Applicant does submit a paper by fax, the original signed copy should be retained by applicant or applicant's representative. NO DUPLICATE COPIES SHOULD BE SUBMITTED so as to avoid the processing of duplicate papers in the Office.

Any inquiry concerning rejections or other major issues in this communication or earlier communications from the examiner should be directed to Terry A. McKelvey whose telephone number is (703) 305-7213. The examiner can normally be reached on Monday through Friday, except for Wednesdays, from about 7:30 AM to about 6:00 PM. A phone message left at this number will be responded to as soon as possible (i.e., shortly after the examiner returns to his office).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dr. Remy Yucel can be reached on (703) 305-1998.
